

Mutual Health Services Find a Provider

Making informed decisions about your care is easier than ever

Whether you are seeking a specialist or having a baby, or need an x-ray or knee replacement, Mutual Health Services Find a Provider allows you to compare doctors, facilities and estimated costs so you can plan ahead and make the best decision for your health and your wallet.

Search for in-network doctors and facilities

Mutual Health Services Find a Provider makes it simple to search for in-network providers by specialty, location, condition, reviews and more. You can even filter provider results by gender, language spoken, hospital affiliation or specific practice. The tool populates search results based on your own address and health plan's network. You also have the option to search by another ZIP code, address or farther distance from your home.

Compare costs among providers

Healthcare costs can vary by hundreds or even thousands of dollars depending on which doctor you see and which facility you visit. Mutual Health Services Find a Provider can help you understand your options and estimate your costs before you schedule an appointment or have a procedure. You can see cost estimates based on your benefit plan so you'll know the amount you may be responsible for, and how this impacts your annual deductible and out-of-pocket spending.

Use Mutual Health Services Find a Provider to search for:

- In-network doctors and hospitals located near you
- Providers filtered by gender, language spoken, hospital affiliation or specific practice
- Provider and facility ratings and reviews from other patients
- Average costs and estimated out-of-pocket costs for procedures and services based on your benefit plan
