

IDENTITY Protection

PREVENTION TOOLS

You now have access to protection from identity fraud with identity theft protection, an Assist America program that offers robust tools to help prevent theft of your personal data, and restores its integrity if it is used fraudulently.

Secure Credit/Debit Card & Document Registration

You can store information from credit/debit cards, banks, and important documents in one secure, centralized location. If any of the registered items becomes lost or stolen, retrieving the information is fast and simple, and the resolution process of canceling and replacing cards and documents is just a simple click away, enabling a fast possible resolution.

Internet Fraud Monitoring with Card Patrol

Once you register credit/debit card information on our secure site, identity protection uses real-time web crawling technology to monitor any sign of the cards in underground chat rooms, websites, and blogs where thieves trade and sell stolen data. If we find any serial numbers or personal information on these web portals, we automatically send out an alert to you, providing enough time to foil a thief's attempt to use the data.

ID THEFT RESOLUTION TOOLS

If you become a victim of ID theft, or even suspect it may have occurred, a single toll-free call is all that is necessary to put our professional fraud support team into action. A dedicated Fair Credit Reporting Act (FCRA)-certified case worker who will act as a trusted guide through the many forms and agencies, will provide you with a customized identity fraud support service kit, and help you:

- Help regain ownership of your data by contacting the major credit reporting agencies, filing disputes, notifying the US Postal Service, and alert the Social Security Administration and IRS
- Notify your bank and credit card issuers of the fraudulent activity
- Help restore financial confidence by acting as partners to bring about speedy problem resolution
